

Commonly known for its coastline and beaches, Okinawa's culinary identity is shaped by far more than its landscape. The island's subtropical climate, surrounding waters and ecosystems produces ingredients that develop with a distinct character, maturing slowly, influenced by nature and time.

Okinawa, Unveiled brings these elements together through an exclusive contemporary innovative fine dining menu that harmonises Japanese sensibilities with French techniques, specially created by Chef Shusuke Kubota.

Each dish reflects artistry, passion, and an unwavering respect for ingredients, producers and culture, inviting guests on an enriching culinary journey through time and taste.
